

Benefits of Mulch Installation

- Inhibits weed germination.
- Retains soil moisture, protecting plants from drying out and the need for additional watering.
- Controls soil erosion.
- Keeps the soil cool in the summer and warm during the winter months.
- And of course, mulch is extremely visually appealing. Quickly update and enhance your curb appeal!

Summer Annual Flowers

From small front entry pots, urns and planter boxes to planting beds and perennial gardens, we have your summer annual flowers covered. Now is the time to start designing and ordering your summer annual flowers.

Contact us today to get started on your mulch and flower project this season.
